Guests accompanied by a guide dog or assistance animal must be in control of their animal at all times, keeping them on a lead or harness while in the Disney® Parks, Hotels and Resorts. Please note that Cast Members are not authorised to look after your guide dog or assistance animal.

If you plan to bring your assistance animal with you to Disneyland Paris, please make sure you have the animal's up-to-date travel documents with you (proof of vaccination, documentary proof that the animal is an assistance animal). These will need to be presented when you check in to a Disney Hotel or on entering the Disney Parks.

Guide dogs and assistance animals are permitted to use the gardens to relieve themselves. For the comfort of other Guests, however, we would ask all animal owners to make sure they clean up after their animals if at all possible.

Our resort does not sell food for guide dogs or assistance animals, so we would recommend bringing food and a bowl so your animal can drink regularly throughout the day.

Due to the nature of some attractions, guide dogs and assistance animals may not be permitted to ride. For further details, please take a look at the **Disney Parks Accessibility Maps**.

Please note that Cast Members are not authorised to look after your guide dog or assistance animal. If you wish to go on an attraction that the guide dog or assistance animal is not permitted to ride, the animal must be left with a member of your party.

TOP TIP! If you prefer to visit the Disney Parks without your guide dog or assistance animal, you can leave it for **free** at the Animal Care Centre for the day (national identification certificate and up-to-date vaccination record are required).

Please note that our Animal Care Centre has limited capacity and does not offer a reservation service. We may have to refuse your animal if the Centre is at full capacity. We recommend making alternative arrangements before your visit.

★ Attractions

Certain attractions are subject to specific access procedures and restrictions in order to guarantee your safety. We would highly recommend taking a look at the Disney® Parks Accessibility Maps to help you plan your trip.

- ♥ Cast Members can refuse entry to an attraction in accordance with the attraction's access restrictions* or if they believe the configuration of the seat or your body shape or size would not allow you to be securely positioned in the attraction vehicle
- ♥ Access to attractions is subject to availability
- ♥ Access restrictions are based solely on health and safety

*Attraction access procedures and restrictions are drawn up by Disneyland Paris to reflect each attraction's specific features. They take into account the access conditions, the vehicle type and our regulatory obligations in order to guarantee the safety of all our Guests.

Guests must familiarise themselves with the warnings and instructions that are displayed at the designated entrance to each attraction and published in the **Accessibility Maps** (take a look at the evacuation procedures on page 28 in the appendix). Accessibility Maps are available from City Hall, priority desks, Studio Services, Concierge and Reception Desk of Disney Hotels and the low-level ticket desks at the Disney Park entrances. They can also be downloaded from our website.

★ Attractions, Disney Character Meet 'n' Greet & Shows

★ Evacuation conditions

The Accessibility Maps contain an assessment of the evacuation conditions for all our attractions. You must consult the evacuation conditions to assess how easy it is for you to be evacuated if required. You can also consult the evacuation procedures on page 28 in the appendix.
